HAVE YOU LODGED A TAX RETURN FOR 2021?

The tax season officially ends on the 31st of October every year, however if you have lodged your 2020 tax return with a registered tax agent you have until the 16th of May to lodge for 2021 before your return is deemed late by the ATO.

You may receive a Failure to Lodge (FTL) on time penalty from the ATO if your return hasn't been lodged. This will increase if the ATO has issued you a warning and you fail to comply with completing outstanding lodgments.

To avoid any penalties and get your tax obligations up to date, you can fill in an online form on our website or book an appointment with us either online through our website or by calling us.
